Accountability Task Force Recommendations

Pending:  Completed: 

Recommendation/Outcome

Status

Recommendation

1. Consider whether any formalised commitments are needed from the RIPE NCC (that it will implement policy, follow relevant community directions, etc).

Recommendation

2. Consider whether the RIPE Chair should be asked to disclose financial details associated with performing RIPE Chair duties and who covers these.

Outcome

The RIPE Chair [provided this information](#) (slide 11) during the RIPE Community Plenary session at RIPE 79.

Recommendation

3. Consider reviewing whether current informal safeguards are enough to prevent bad actors from passing a policy proposal without the wider community having an opportunity to comment (not a great risk in the task force's view).

Recommendation

4. Consider including an explanation at the top of obsoleted RIPE Documents when there is no replacement document that it refers to. Possibly create a new "Archived" status for documents that are no longer current, but not exactly obsolete.

Recommendation

5. The community should consider whether more can be done to distinguish between the different types of RIPE Documents and whether consistency can be applied to the metadata for these documents moving forward.

Recommendation

6. The task force believes that the community needs to make progress on finalising the RIPE Chair replacement procedure.

Outcome

A new [RIPE Document](#) describes the replacement procedure and consensus on this [was announced](#) in August 2019.
